

Power Drive Unit – 126100-series

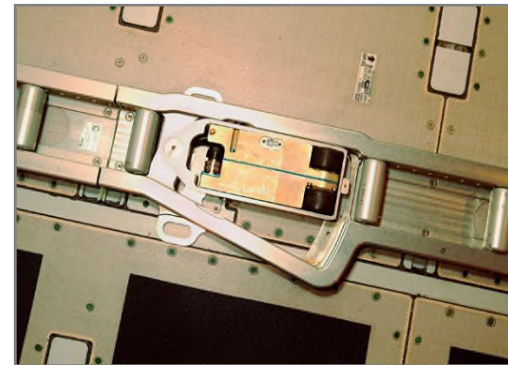

APPLICATION

- Airbus A300/A310 Main Deck
- Airbus A350 XWB Lower Deck
- Boeing 747-400F/BCF Main Deck
- Boeing 767-300BCF Main Deck
- Boeing 747-8F Main Deck

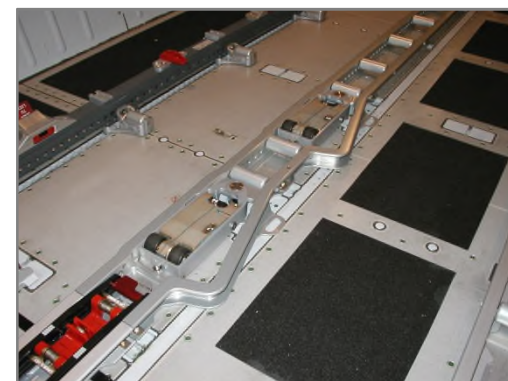

DESIGN

- Roller tray mounted design
- 2" system height
- Integrated electrical brake
- Optical sensor
- Solid state circuitry
- High power versus unit weight ratio

FEATURES

- Spring loaded unit
- High tractive force
- Current and temperature protections
- Fully sealed unit
- Rollers covered with proven durable Teldur® rubber
- In-situ PDU drive roller replacement

AVAILABILITY

- STC certification
- Alternative applications possible
- Call for best price, exchange conditions or kit pricing
